Ukrainian Language Acquisition System

## Ukrainian Language Acquisition System

The Ukrainian Language Acquisition System (ULAS) is a fully interactive beginner course, intended for children learning Ukrainian for the first time. It is designed to be used in the classroom with a teacher or on its own at home. The material is presented in an enjoyable manner. All lessons have been carefully designed to combine education with entertainment. It will motivate young learners and provide them with an inviting way of practicing and studying Ukrainian language patterns. These patterns make up the foundation for learning Ukrainian effectively. The course animation and music are based on Ukrainian tradition. ULAS users find themselves in a typical Ukrainian village, meet its people and get acquainted with their habits and lifestyle.

#### System Requirements:
