Jury Guidelines

Jury: The Jury will consist of members drawn from both the artistic Ukrainian community and the Embassy of Ukraine in Canada.

Evaluation: Each Judge will independently evaluate and score each project and the sum of all scores will be tallied. In the event of a tie, the judges will make an executive decision.

Combination of the Past With the Modern Aspects of Life Criteria: Each of the following criterion is worth a maximum of 10 points per judge.

1. **Observation** refers to how accurately the artist has observed historic events with modern issues and has represented them.
2. **Vision** refers to how well the artist has envisioned a positive future stemming from the personality of Mazepa and what he did.
3. **Relevance** refers to the degree of relevance the project is to the local, national or global community.
4. **Imagination** refers to the level of creativity the individual has adopted in viewing a problem and identifying a solution or a vision for the future.

Artistic Criteria: Each of the following criterion is worth a maximum of 10 points per judge.

1. **Creativity** refers to the newness and originality of the design.
2. Composition refers to the visual balance, static or dynamic, of the various elements of the project.
3. Expression **of meaning** measures how well the project makes its own theme clear to the viewer. The artist's statement, if provided, should be considered in making this judgment.
4. Expression **of emotion** refers to the extent to which the project can be expected to evoke an emotional response in the viewer.
5. **Finish** refers to the completion of the project and attention to quality.
